- Monday,6th February
(Presentation)19h00 - 20h00
- Tuesday,7th February
(Workshop) 10.00 - 11.00
- Tuesday,7th February
(Presentation) 19h00 – 20h00
- Wednesday, 8th February
(Workshop) 10.00 - 11.00

Pre-Nursery & Nursery

We loved learning about the triangle shape.

Each one got a turn to mold a triangle using play dough and we told our peers about the objects we found at home that has a triangle shape.

We also crafted a person using shapes and this helped us to name visible parts of our body.

We love our play time as we get to pretend to be anywhere, we wish to be.

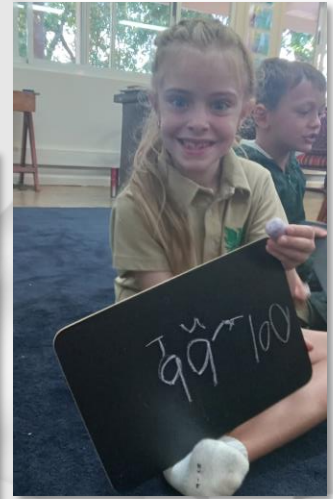

Reception

We enjoyed making a happy Reception family out of pipe cleaners, beads and clay. In the process we developed our fine motor skills. We expressed our creativity by the colour we chose and the way we positioned our people on the clay foot and some family members even have wild hairstyles!

Year 1 & 2

In Literacy we have been working hard on our Poetry skills.

In Numeracy, we have been learning about rounding off to the nearest 10 in year two and counting in 10s in year one.

Year 3 & 4

Loads of excitement in our classroom as the IPC Diorama projects have begun. Children are gathering boxes, researching their topics and showing such enthusiasm to get started.

In Mathematics this week we continue to revise place value and multiplication. Our Literacy program has put emphasis on reading for fluency with daily group reading.

Year 5 & 6

Two of our Year 5 boys showing
such a beautiful Act of Kindness
– True gentleman indeed.

We strive daily to follow our 4 G's
Greet
Groom
Grounds
Generosity

Art & Music

In Art, Year 1 and 2 were learning to draw and paint musical instruments, inspired by Pablo Picasso while Year 5 and 6 were drawing and painting details of the eye after learning about organs of the body in Science.

Physical Education

This week, we continued working on cross-country running and general fitness. The learners also worked on their swimming skills.
