Teacher Challenge Mud Run

The PTA held a fundraiser with two voting jars. The Mud Obstacle Course won and the teachers were subjected to a crazy set of obstacles!

Mr Nyabvure and Mr Botha were the team captains – and the winners were the PTA!

Teacher Challenge Mud Run

Book Week

To celebrate Book Week, all teachers visited two classes to read some of their favourite stories to the students.

Pre-Nursery & Nursery

We enjoyed molding and sorting numbers.

We practised counting and building using shapes.

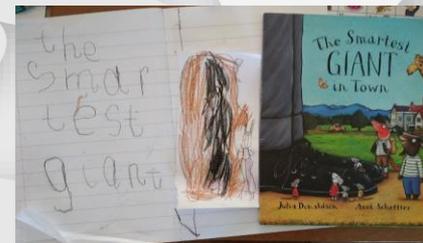

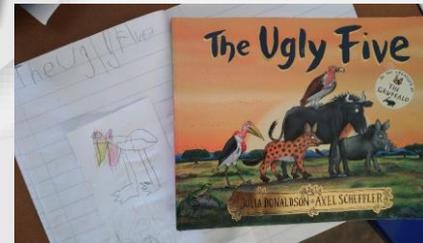

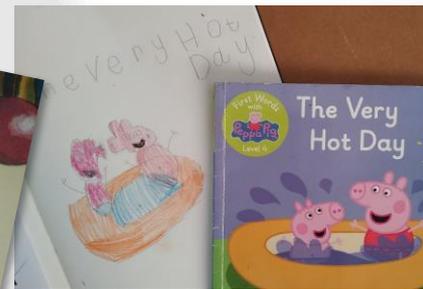

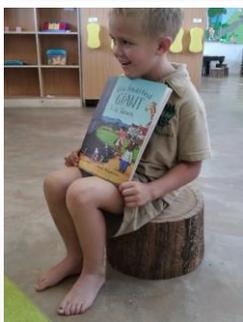

It was Book Week, and we loved listening to different teachers reading to us.

We dressed up as our favorite book characters.

Reception

We celebrated Book Week!

We shared our favourite books with each other.

We wrote their titles and made drawings of them.

We listened to other teachers' favourite books.

We dressed up as our favourite book characters.

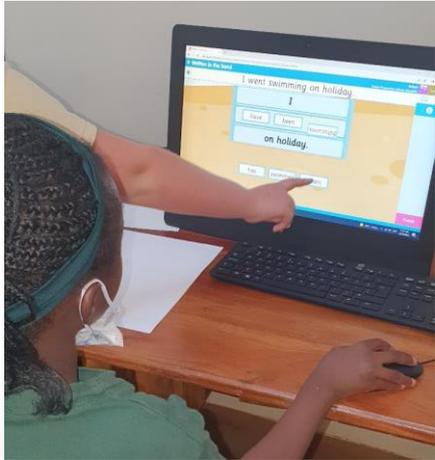

WE LOVE BOOKS!

Year 3 & 4

We have been learning about poetry.
'*Bradley Bentley Baxter Bloome*' was a perfect
tongue-twisting start.

We have been learning new concepts in both
Maths and English, which are reinforced in
Education City.

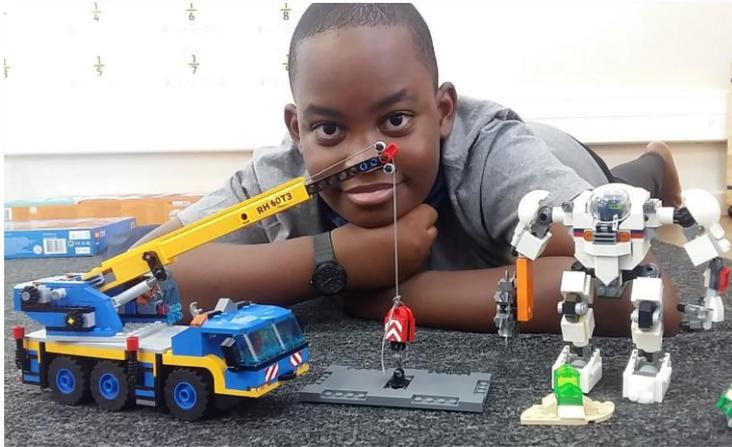

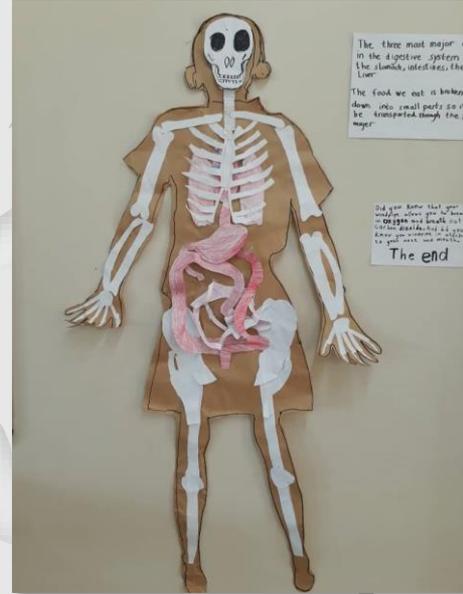

The highlight this week has been the new STEM
Lego kits!

Year 5 & 6

We introduced our Science, Technology, Engineering and Maths (STEM) lessons this week, which use a range of Lego building kits to stimulate and develop these skills.

In Science, we have been learning about the organs and systems inside our bodies.

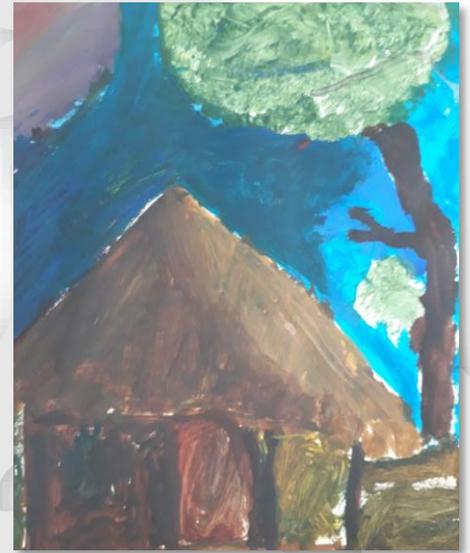

Art & Music

In Music, we were learning to play different instruments together.

In Art, we were learning to draw and paint houses.

Physical Education

This week the students have been learning about change of direction and passing in hockey and rugby.

Afternoon Activities
